Buy verificadatengo a certain curiosity for some of the rait of a star here described it based on "violence and murder". What were these critics from the program based on "Psycho"? A sweet story about a child and the mother of him? What happens to Norman This video is not currently available 4. Mom is a real piece of work, and Norman is a sympathetic and sweet guy. Those who have perished so far `had to come. `And we know the destination of Norma and Norman Bates, no? However, you can sympathize with the boy. The first few minutes capture your attention and you just want to know more and more. This video is not currently available 5. Confident me... she is demonstrating with every right paper, she is capable of. The role of Farmiga as the mother is very complex and always changing. Not to mention that the events of the first episode are, in summary, horrible. I liked the pilot motel and grew up to love him as the show progressed and never has a boring moment! I love the characters, the plots and the whole show! I can not wait for season 5, at the same time, I'm afraid, since I put the rapid that moves the stations & this is the end! What to do! It is the only T.V. Series that have loved me from children from AnarchAa & Breaking Bad! So when the exit theater spectacle, creepy, as well as good is over, what except listen to music!? I hope Kerry Ehrin and Carlton Cuse have something else for us soon! That goes for Kurt Sutter & Paris Barclay, too. Holy Bejebus. The next, she's selfish, childish and manipulative. Norma wants Norman to be her bad friend, suffocates him and becomes jealous of the time he spends with anyone but her. He looks like a tough Anthony Perkins and his presence gives us a weekly reminder of how creepy and mysterious the town is. There's a lot to do in this program to get and keep you hooked. Brilliant! Another character that really stands out is the town sheriff, played by Nestor Carbonell. Of course, it's not 100% compatible with the canon, but I was expecting that. Don't mess with the classics, and by all accounts, Hitchcock's "Psychosis" is almost as classic as it gets. He is incredibly believable with his uncomfortably shy person, his abnormally polite speech and his uncomfortable gesture. How far will you go to get what you want? The Achilles heel of the program is the representation of Norman Bates. I hope Emma's innocence is what saves her, but I'm afraid it may not. I can't wait for season 2 to know how crazy awaits us yet. This show is set in the now, but the original movie was set in the 50's? I just can't find any t.v. shows that will fill my love and excitement like Bates Motel has or any other t.v. programs so good, well written or exciting!! WHAT TO DO !!!!!!! A contemporary prequel to Psycho, giving a representation of how the psyche of Norman Bates unfolds through her teenage years, and the deeply intricate nature of her relationship with her mother, Norma, is truly a... Emma may be the only innocent person on this show, as it seems that the rest of the show The town is just as murky, twisted and crazy as the Bates family. The thing is, you're never sure who Norma will be. And I mean anything. It goes from creepy to creepy, it never really shows a real change in the psyche, and when it says it has blackouts, it just doesn't buy it at all. Beautiful city you chose, Norma... We'll see, won't we? (Spoilers Ahead!) There are some funny references in this that relate to "Psycho", and one or two other "Easter eggs" by Hitchcock, such as a reference to "The Birds." We also learn where Norman learned about Taxidermy. However, I was pleasantly surprised to find a well thought out, unique and wonderfully performed series. You can put it all together because he ends up being Psycho's type. So each episode and season is moving toward the inevitable continuous break-up of Norman's logical physical deterioration. It's not that the acting, written or narrative line is dull, it almost seems that it was created to move some subplots and enrich the family dynamic. It is quite clear that she is unbalanced, had a troubled childhood, has recently lost her husband (who may have been abusive) and is trying to start over. 8.5/10 (9 is great for me) 4 people found this toolKindle CustomerReviewed in United States on July 3, 2013David/Hitchcock/Verified purchase2 people found this utilityGwenReviewed United States on September 21, 2013Can't wait any longer!Verified purchaseSome person found this utilityTheWritingRoomReviewed in the United States on April 16, 2015I'm signing up at Bates MotelVerified buyOne person found this utility robert e. She decides that taking advantage of her late husband's insurance policy and buying a house and motel that are ready for closure is the perfect start to their new life together. burrowReviewed in United States on May 10, 2013Really surprised!!Verified PurchaseMy Curiosity What made me get this. At the beginning of this history line, the images of the book that Norman finds clearly clearly a huge impact on him. I loved her, she's so funny and beautiful as well ! I found myself jealous of her beauty, loved that she always wore dresses & in Oregon too. Is she a sociopath or just an overprotective mother? Then, there's the scene where Norman speaks using his mother's voice. The name BATES MOTEL sounds like a desperate spin-off of PSYCHO but it reminded me more of David Lynch's TWIN PEAKS using PSYCHO as a starting off point for the two main characters.The series begins when Norman Bate's father has a sudden accidental death and his mother, Norma, decides she and Norman need a brand new start in a brand new town. Midnight This video is currently unavailable It is hard for me to take a liking to many t.v. Shows or even movies for that matter, due to my health problems, but when I do, it's so great to watch & pay such close attention that I can escape my pain for awhile. She inspired me and I thought about 8 dresses and purchased a couple pairs of earrings, one pair just like her blue pear shaped ones taboo. And I really hope that "Bates Motel" doesn't go the way of so many really great shows that had great first seasons and fell apart in the second (Heroes comes to mind).Fans of the original movie may hate this for various reasons, but speaking as a fan of "Psycho" (since childhood, as a matter of fact - I bad parents who let me watch whatever I wanted) I love it. Not to mention, this story line drives a lot of the events that happen in the series. But the more I saw, the more intrigued I became. BUT, I read a "spoiler" on season 5, Bates Motel.....that Vera Farmiga will not only be Norman's mental delusional "scenes", but there is talk that Vera Farmiga" will be returning to Bates season 5 not ONLY in Norman's physco mind - but as a whole other character !?! He's humble, naA Ave, polite and mild mannered yet you can see that budding psychotic fighting to come through pretty early on. I feel just awful that Alex Romero, who loved her so much. But then it becomes obvious that it is out of genuine concern for her little brother.Personally, Dylan's a little dull for me. There's an emphasis on the shower drawings to warn you. This is great ALMOST.Verified purchaseWhat a very good first season. One minute, she is taking care of, loving and down to the last detail the "good" mother. I have chills. An excellent previous thought has gone into the writing of this show....Juno, the dog, for example ! Since the first season when Norman finds this poor, lost & lonely dog! Now we are seeing as Norman enters his blackouts, Juno becomes alive and well. But she's not at all unpleasant. Their short time together was so sweet & so short!! I can't wait to see what's in store for the end of the series described, tinkling, creepy and epically explosive". I felt the heat between her and Alex Romero, then it happened, was SO EXCEPTED, but they had as limited a time as a married couple. 1 As sad as I was she died (Yes, I cried!). I realized that the life will be part of the show on the delusional twisted mind of Norman in the fifth season ! But will this be enough for all Bates Motel watchers & fans? I just saw her in a movie she directed and starred in called HIGHER GROUND and I'm a fan of her performances in UP IN THE AIR and an earlier 2004 feature film DOWN TO THE BONE. Ocean View This video is not currently available 6. A Boy And His Dog This video is not currently available 9. He will not be manipulated by Norma's feminine tricks as other men have done in his past.I would say that the only problem I have with the show is that it has a lot of mini-dramas happening at the same time, some of which I find unnecessary. But, just when you start feeling bad for her, she does something. Inappropriate or simply stupid and hate it again. Then, it is the addition of an older brother named Dylan. We hope this improve or at least adde in the series somehow.But, for what it is now the show is really something. Of course, she can't take possession ³ any of these decisions and puts the blame anywhere she can, including Norman.On some level, Norman knows there's something wrong with Norman. There are nuances of corruption ³ n in A©, but also nuances of morality.The real moral brass in this story comes in the form of Emma, a girl with fibrosis that is last and only friend of Norman. It's openly critical of the unnatural proximity between mom and brother, and at first it seems jealous. Truth This video is currently unavailable 7. The delivery and tone were punctual and absolutely chilling. Some people have criticized the sex slave story line, but I kind of get it. Norma seems incapable of making the right decision³ and ends up digging a hole so deep it would be better if she buried herself in it. Unfortunately, her actions can directly affect Norman and her slow descent into psychosis.Emma is the only character I really fear for in this whole series. She is honest, kind and frank about injustice. Yet here, it seems creepy all the time, which betrays the character's essence in one way. He decided to review things because of ratings and word of mouth and, for the most part, he lived up to expectations. Every time Norman makes a bid for freedom, she makes the As a girl of 13 years too dramatic with a case of "I do not care, I'll stay here and die," blues.
